To 3: Attached is Records Control Schedule for OPER/CCD. It is the first attempt at a Schedule for CCD; rather than having it' retyped, CCD has submitted a covering memorandum which will clarify some of the disposition instructions. Please retain copy, if desired.

DDP/RMO

3-7:
Copy is being retained. Since CCD states that all files are temporary, I assume the policy and procedural matters described in item 15 are documented elsewhere in DD/P. Otherwise, this file would be considered permanent because of its archival value.

1. The destruction of files described in this schedule requires approval of Congress in accordance with the Records Disposal Act.

However, the General Counsel's opinion of Oct. 1950 prohibits compliance with this Act if intelligence sources or methods would be revealed. The descriptions of these records reveals intelligence methods. Therefore the opinion of General Counsel prevails permitting the DCI to take exception to the Records Disposal Act.

Feb. 8.

9-AM.

2. The disposition instructions in this schedule reveal the DDP concept of managing records by the piece and file folder rather than by the cubic foot. This concept requires a central file room for disposition rather than a records center. Date stamping of file folders is not required by the Records Center, since the date of any disposition action is calculated from the time one box or more is retired. Item 1 of this schedule

~~3. From a systems and procedures viewpoint~~
specifically requires retirement of
a box - The same instruction should
apply to the other 10 items.

3. From a systems and procedures
viewpoint this schedule gives
the impression that there may
be too many files series maintained
and that there is some avoidable
duplication of paper between the
various series. In item 6 one
wonders why this information
isn't available in the official
project files.

4. The retention periods for material
retained to the Center are as follows:

<u>Item</u>	<u>Retention</u>
1	60 year review
2	20 " "
3	20 " destruction
4	15 " review
5	15 " "
6	20 " "

MEMORANDUM FOR THE RECORD

SUBJECT: DDP/CCS Schedule 75-66

AT The disposition instructions in this schedule imply rather than direct retirement of files to the Records Center. I talked with  about this and he agreed instructions could have been more specific on this point. Because Mike has been doing business with the Center following a similar schedule, I recommend approval rather than insisting on a rewriting.

PS: Mike is confused about the purpose of a schedule -- he thinks a schedule is a device for getting records into the Center, so this schedule describes only those records CCS wishes to retire.

MEMORANDUM FOR: Chief, Records Administration Staff

SUBJECT : CCS Records Control Schedule

25X1 1. CCS requests that the disposition instruction of
25X1 item ten (10) of the CCS Records Control Schedule be extended
for five years. This would change the retention time at the
Record Center from five years to ten years. As justification
for this request I attach memo dated 18 November 1966 from
C/CCS [] to C/CCS [].

2. At present the four boxes containing these files,
sent to CCS for destruction from the Record Center, are at
Headquarters Building. If you approve of our extending the
retention time to ten years we will return the files to the
Record Center. CCS will await your reply before taking any
action.
